

Eray Koç

Mathematician · New Graduate

I chose mathematics to enhance my analytical skills. Pursuing my interest in software, I'm taking related courses and seeking additional training. I aim to advance in this field during my career.

Outside of academics, I enjoy stand-up comedy and participating in performing arts. I usually find campus life enjoyable; it's a crucial setting for both academic growth and social connections.

Deeptech/AI Research & Development Intern

ARVIS TEKNOLOJİ · Istanbul, TURKEY 📍

During my internship in the Deep Tech/AI field, I gained hands-on training in Linux, image processing, and computer vision. I also explored advanced topics like blockchain architecture, AI ethics, and the future of AI in healthcare. My practical experience in Fusion 360 design, biometric technologies, and cryptology enhanced my skills in project management and problem-solving. Additionally, I engaged in training on self-discovery, career planning, and young leadership, furthering my professional development.

Finance Intern

QNB FINANSBANK · Istanbul, TURKEY 📍

Throughout my internship, I had the opportunity to meet with managers working in different departments of the bank to learn about their roles, the functioning of their departments, their future plans, and their expectations from colleagues. Additionally, by completing a 21-hour program including training sessions, I learned how to acquire some of the technical skills and soft skills required for various departments.

RPA Developer Intern

SOFTTECH · Istanbul, TURKEY 📍

Throughout my internship, I developed various RPA robots as part of a team using UiPath. For instance, I designed a robot that processes an Excel file listing credit applications, pulling data from Orchestra. This robot, structured with the REFramework, filters applications, saving eligible ones in the system and notifying clients via email about ineligible ones. At the end of the process, the robot provided me with a comprehensive report. Additionally, I had the opportunity to experience both physical and remote work environments during my internship.

SELF-EDUCATION

Jul 2024

IBM ile Kodluyoruz: CyberStart

IBM, KODLUYORUZ 📄

In this six-week program, I received training on current topics such as Cyber Security, Python, Artificial Intelligence, Blockchain, Soft Skills, Cloud Computing, and IoT, with content provided by IBM and Kodluyoruz. Throughout the program, I successfully completed various courses on the Cohorts and SkillsBuild platforms.

May 2024

CEF Finans Programı

SABANCI ÜNİVERSİTESİ-CEF, AKBANK GENÇLİK AKADEMİSİ 📄

I successfully completed a finance education program at CEF and AKBANK that featured globally renowned experts such as Prof. Dr. Aswath Damodaran, the Chair of Finance at New York University, and Prof. Dr. Özgür Demirtaş. The program offered participants the unique opportunity to meet Prof. Dr. Demirtaş in person and engage in discussions. Additionally, I completed courses on Valuation, Investments, Accounting, and Financial Analysis, including a session led by Dr. İmran Emre Karagözlü, Group Treasury Director at Coca-Cola.

Jan 2024

Mobil Uygulama Geliştirme Atölyesi

TECH İSTANBUL 📄

Successfully completed an intensive training program led by Hüsnü Taş, focusing on the fundamental principles of mobile application development, user interface design, and app deployment. The program included practical applications of mobile app development, with sessions held both in-person and online.

Others

UDEMY, UIPATH ACADEMY, YOUTHALL, CODERSPACE, AKBANK, TOPTALENT.CO. 📄

In addition to the training and events mentioned, I have participated in the following:

- UiPath Advanced REFramework
- Robotic Enterprise Framework
- Email Automation in StudioX
- Attended Automation for RPA Developers
- Şehrin İyi Hali (Ahtapot Gönüllüleri Derneği)
- Şehrin İyi Hali (Çorbada Tuzun Olsun)
- Finans ve Ekonomi 101
- Finans 101 Online Staj Programı Fınarmoni Eğitimi
- Tech Career Summit
- Inspiring Women Career Summit
- Social Awareness Career Summit
- Developer Career Summit
- Women in Engineering Career Summit
- MT & INTERNSHIP Digital Talent Summit
- Cloud & Devops Day
